

Medical SEO Case Study 2: Palm Beach Orthopaedic Institute (PBOI) (Orthopedics, 4 Locations in Palm Beach County, FL)

Summary:

With 16 doctors, PBOI is the largest orthopedic practice in Palm Beach County, FL. The practice already had a good website, but was not appearing at the top of Google search results. This meant that they were not easy for patients to find online. Furthermore, the practice had very few positive online reviews.

Before:

- ✗ Practice was **NOT easy to find on Google**, even for basic keywords such as “orthopedic surgery West Palm Beach”.
- ✗ Practice did **NOT have many positive online reviews**.
- ✗ Practice had a **VERY small online audience** / following.
- ✗ **Website Traffic was low** for such a large practice.

After:

- ✓ Practice is now **on the FIRST page of Google** for almost all of the targeted keywords (e.g. First position for “orthopedic doctor west palm beach”.)
- ✓ Practice now has **over 60 new positive online reviews**.
- ✓ Practice has **over 1,000 followers** new social media followers (on Facebook, Twitter, and LinkedIn).

BUT did this generate new patients?

YES:

- Over **2,000 new website visits every month**
 - Most of this traffic came via **Google**
- Increase in calls to the practice via **Google My Business**

★★★★★ I received the Best Service Ever! From the minute I entered the suite, until the follow up calls, customer/guest service was Outstanding. Also, the technology used to check-in and to diagnose is A+. All medical staff was attentive, interested, and well trained at identifying, diagnosing, and prescribing my ailment. Nick went beyond common practice to make arrangements for my required knee brace. Doctor Noble has assembled an outstanding team of professionals. Keep up the terrific work!
